

Memo to Emergency Services Committee

At our recent monthly meeting held April 28th, 2005 a number of items were discussed relating to the recent approval from the Board of Supervisors to amend our charter to include related areas beyond the communications project. Recommended agenda items include, but are not limited to:

- communications
- training
- standard operating procedures
- Emergency Operations Plan
- Equipment procurement
- agency reports

Also, an Emergency Services Committee webpage was recently added to the Cumberland county website (www.cumberlandcounty.virginia.gov/emservcouncil/index.html). There are six primary areas that were recommended:

- **Members** – an updated list of the committee members with a recommendation to include contact information.
- **Statistics** – Monthly and year to date data. This is still in discussion for the most efficient way to compile the data. Please make suggestions/changes in the ‘types’ that you feel would be helpful to the community and our committee.
- **Training** – an updated list of training activities, dates and locations. Recommendations were made to include a submission form for anyone interested that could be forwarded to the appropriate contact.
- **Events** – an updated list of fundraisers/activities of interest to our members and/or the community to help with volunteer fundraising
- **Recruiting** – an updated list of contacts for those interested in joining.
- **Updates** – to be used for posting documents that the committee can access as a means of better communicating information to the committee members. Also, provide an opportunity to report the activities of the committee.

Please take an opportunity to look at this webpage (a copy of the page is attached) and submit any additions/corrections/suggestions to Kelly Hale (khale@streetandco.com or fax 804-273-9099) by Tuesday May 10th. All the changes will be compiled and submit to Aaron to update the webpage.

Our next scheduled meeting is Thursday May 26th at 7:00 pm in the Old Clerk’s office and is open to all who wish to attend.

Charter

The **Emergency Services Committee** (ECC) reports directly to the Cumberland County Board of Supervisors (BOS) and is responsible to advise and make recommendations to the BOS on all areas as they relate to effective and efficient operation of emergency services. Such areas are defined as but not limited to:

- Communications
- Organization design/personnel
- Technology
- Economic Development
- Education/training
- Public Safety
