- The connection fee for meters that are larger than six inches shall be determined by the director based on the number of ERUs per unit.
- The connection fee for a dwelling that is served by a meter that is larger than five-eighths inch shall be the same connection fee charge in subsection (b)(iv).
- The consumer shall construct, at his expense, any and all water lines and wastewater laterals to serve the property.
- When the board of supervisors approves a utility extension, the connection fee shall be deemed an initial connection fee in an amount of either (i) \$50.00 for property on which an existing residence is located or (ii) \$100.00 for property on which an existing business is located and which is served by the extension for customers who apply for service within 90 days after the date of notice from the county that service exists.
- The connection fee shall be the fee that is in effect on the date that the customer applies for service except that, when the board of supervisors approves funding for a utility extension, the connection fee for customers who apply for service within 90 days after the extension is completed shall be the connection fee that was in effect when the board approved the extension.
